Stakeholders Feedback Report

Curriculum design and development is a significant process in development of appropriate curriculum based on Stake Holders feedback.

The process of feedback is discussed below.

Feedback Form Stack Holders

↓
Analysis of Feedback

↓
Action to be taken

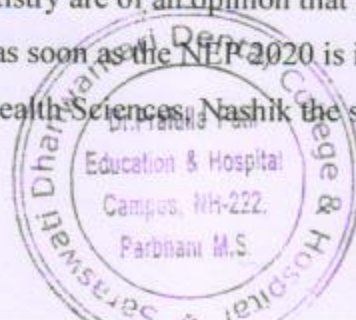

↓
Presented in Academic Council

↓
Finalization & Implementation

The feedback on the curriculum/syllabus are recorded at the start & end of academic year development of curriculum for different programme begins with evaluation of the curriculum & the modification suggested by the academic council.

According to the analysis of the feedback provided by the students the following points were noted.

1. Most of the students are happy with the current format of curriculum. The college provides a healthy environment of teaching & learning.
2. The alumni suggested an increase in exposure of the students to the clinical work especially in the department prosthodontics which has been put forth to the department.
3. The experts in the field of dentistry are of an opinion that the BDS course should be revised as the National Education policy 2020 as soon as the NEP 2020 is implemented by the Dental Council of India and Maharashtra University of Health Sciences, Nashik the same will be implemented in the college.
